Joy is one of our top favorites of the 2023 calf crop. She's adding horn and frame at a faster rate than any of her peers. Her young dam is exactly what we look for in a female: an excellent producer with a perfect udder and a calm disposition. Joy's sire, Wheels Up, is pushing toward 100" as is her service sire, Dunn Got Double Lucky (99.75"). Joy is parent verified, BVD-PI negative, and color coat tested E+e (wild, red). **CONFIRMED**
